RUGGED DISPLAY

A3RD SERIES

24" A3RD 5824 WU

24"

Key Features

- IP68/NEMA 6P waterproof
- RTCA DO-160 qualified
- NVIS capability
- Flexible positioning of the connectors
- Optional USB front connector from computer via back connector
- ROHS compliant

IRTS 5824WU is a rugged display of the A3RD Family, a comprehensive range of 17" to 24" rugged and ultra rugged displays.

Its specific design, graphic display and video capabilities meet the evolving and operational needs of modern Armed Forces and cope with the toughest environments.

A3RD Technology allows selecting 6 screen sizes (17", 19", 20", 21"W, 24" & 24"W), brightness level as well as military specs ruggedization according to random vibrations levels: level I up to 3 G RMS (SK1 serie) and level II up to 6 G RMS (SK2 serie).

Direct interface with client system, versatile configuration capabilities and easy mounting make it the choice of prime system integrators as a reliable, configurable, best cost and lead time MOTS (Military Off The Shelf) equipment in operational use today.

PRODUCT SPECIFICATIONS

Display Module	
Size	24"
Resolution	1920 x 1200 (WUXGA)
Brightness	300 Cd/m ²
Pixel pitch	0.270 (H) x 0.270 (V) mm
Viewing angles	89°-89° (H) / 89°-89° (V)
Response Time	14 ms (Tr+Tf) White to Black
Contrast Ratio	1000 : 1
Display Color	16.7 M (Dithering)
Backlight	LED Technology
Dimming ratio	up to 10 Cd/m ²
Controls	
Remote control	Backlight, blackout and On/Off control in front
Integrated Video Controller	
Graphic controller	IRTS Embedded Video Controller
Analog Video	1 x input VGA
Digital Video	1 x input DVI
Serial Ports (RS232/RS422)	1 x Serial touch controller / 1x Serial for remote control
USB 2.0	1 x Touch controller / Remote control
BITE	Unit Management software
Electrical Features	
Power supply DC	Power 18/36 VDC with galvanic isolation
PLD-DC	Power Line Disturbance optional module for Power 18/36 VDC
Power supply AC	Power 90-264 VAC with galvanic isolation
Power consumption	50 W normal environment cond. 80 W max in cold environment
Physical Features	
Packaging / color	Aluminum / GAM C BLACK 36X3 (Other colors available)
Connectors Type & Position	
Connectors position / orientation	DOWN / HORIZONTAL (Other configurations available - see below)
Connectors type	MIL-DTL-38999 III (Black Zinc Nickel) size 11 & 13
Options	
Composite Video	1 x Coaxial composite PAL/NTSC (BNC)
Front USB Connector	1 x Fischer serie 102 for connection transfer from CPU (key board, pointing devices, etc.)
Optical bonding	LCD panel bonding
Touch screen	Resistive or Capacitive multitouch
Connecteur Caps	Standard on front, optional on the others connectors
Fastening	See configator below
Warranty	
Two-year limited warranty (parts and labor).	
Additional coverage and customized service plans available on request.	

CONFIGURATOR FOR FINAL PRODUCT

Various combinations are available according to fastening and to orientation and positioning of connectors.

Commercial reference	5824WU
Fastening	F (Front) R (Rear)			
Orientation of connectors	H (Horizontal) V (Vertical)			
Position of connectors	U (Up) D (Down)

PRODUCT MOUNTING

Basically, the back side of the A3R packaging offers threaded holes for four M8-screws, that can be operable or not. Note that this mounting is invariant whatever the size of display. Customer has to choose between front or rear mounting.

STANDARD FRONT MOUNTING

Standard front mounting is realized by fastening of 4 x M8-captive screws positioned at each front corner of the product, finished with trim screws (example for 5821SX-FHD).

FRONT MOUNTING

OPTIONNAL REAR MOUNTING

Optionnal rear mounting can be realized by using the 4 threaded holes for M8-screws positioned at each rear corner of the product (example for 5821SX-RHD).
